## THE EXTRAS

Screens \$23.00 for first color per location, \$13.00 for each additional color

Color Change per screen \$9.00

Art Charges - Design/rework = \$60.00

Reorders - There are no screen or film charges on reorders within the first 12 months.

After that, there is a \$5.00 per screen remake charge

The prices above are for supplied vector artwork. Note - any supplied .jpg, .gif, .bmp and word files will have design time associated with them. Please call in advance and we can help you with getting your file to us in a working format!

## 4 COLOR PROCESS

Minimum order is 144 pieces. Average set-up \$75.00 per color. Most process jobs take more than 4 colors

## PLACING ORDERS

Orders should be placed by email or a written PO

## FORMATS TO AVOID

Jpg and gif at 72 dpi are the 2 main web-based file formats. These types of files will require additional design time to "make" them useable. On screen they appear crisp and clear, but when enlarged for printing they become pixelated and very rough, resulting in a poor print. Please give us a call and we would be happy to dicuss your options concerning these types of files.

## FILE SUBMISSION

Email, CD-R/RW, USB Flash Drive Memory Device

## ARTWORK TIPS AND SUGGESTIONS

Convert ALL fonts to outlines and include used fonts with your submission

Do not set type in Photoshop

Vector based artwork is preferred

If your art is designed as a light print on a dark garment (eg: orange on black), there may be the need for a white "base" print, therefore adding a "second" color. We will discuss that with you and give you your options.

## PAYMENT

50% Deposit due at the time you place your order. The balance due upon completion of your job
